**UCAAS COMMUNICATION AND
COLLABORATION FOR YOUR COMPANY**

ALL-IN-ONE SOLUTION

Reduce your communications costs with our powerful always on solution.

POWERFUL CLOUD BUSINESS PHONE SERVICE

With Streams, you can deploy a feature-rich, consistent, globally accessible telephone service through your enterprise, connecting employees, customers and partners seamlessly.

- INTEGRATED SOFTPHONE
- INTELLIGENT CALL ROUTING
- SUPPORTS VIRTUALLY ALL MOBILE DEVICES
- ENHANCED CALL RECORDING & VOICEMAIL
- BUILT-IN UNLIMITED BUSINESS ANALYTICS
- LIVE MONITOR / SUPERVISORY MODES
- SMS + MMS
- CUSTOMIZABLE WITH APPDESIGNER

ONE-CLICK VIDEO CONFERENCING

Initiate crystal clear HD video/audio conferencing with Streams' built-in service, either on the fly or on a schedule. Set up full web meetings with audio/video/chat and deskshare options. Even send live video streaming broadcasts.

MULTI-MEDIA TEAM MESSAGING

Create unlimited team rooms and consistently share any content securely. Multiple Access levels and team room types give complete control on how people access the content.

GROUP AND EMAIL DIGITAL FAXING

Streams lets you create faxing groups to manage and process sending and receiving large volumes of digital faxes. Streams also supports email faxing, allowing users to send a fax from any device through their email.

INTEGRATED FILE SYNC & SHARE

Streams lets you share files and even folders of content securely with automatic versioning and instantly updated files. Streams is end-to-end HIPAA/HITECH compliant.

Discover the full scope of benefits Streams delivers with zero cost, zero risk and zero obligation. Ask me how!
